Sir:

The Examiner is respectfully requested to consider the references, copies enclosed, which may qualify as prior art. For the Examiner's convenience, the references are listed on the attached U.S. Patent and Trademark Office form PTO-1449.

The Examiner's attention is also drawn to the following commonly-owned, unpublished patent applications which may be considered to contain relevant subject matter. Copies of these applications are included.

Table of commonly owned applications.

*A copy of the corresponding reference is provided and listed in the Form 1449.

Where a publication month of a reference is not listed, the year of publication is believed to be sufficiently earlier than the effective U.S. filing date so that the particular month of publication is not an issue.

This information is cited in a spirit of forthrightness and cooperation to enable the applicants to obtain that measure of protection for the invention to which there is entitlement. However, no representation is made that the listed art actually qualifies as prior art under the patent statute and the mere use of PTO-1449 is not an admission that all listed references are prior art. No representation is made that applicants know of the best art.

It is believed this submission does not require the payment of any fee as it is being submitted prior to the issuance of an Office Action on the merits of the application. If this is incorrect, please charge any deficiency or credit any overpayment to deposit account no. 07-1969.

Respectfully submitted,

Steven J. Penner
